Environmental Policy

Spectrum Floors (Australia) Pty Ltd specialise in the manufacture and distribution of quality contract floor coverings and accessories, entrance matting and wall coverings to Government Departments, statutory authorities and the building industry

Our aim is to minimise or eliminate all adverse impacts that the activities and products of Spectrum Floors may have on the environment, while remaining a competitive leader in the field of floor coverings, entrance matting and accessories. This includes a commitment to minimise pollution and seeking ecologically sustainable waste management systems.

Initiatives and measures undertaken by Spectrum Floors to achieve its objectives include:

- Develop, document, implement, improve and maintain an environmental management system, using a framework for the setting and reviewing of objectives and targets, which complies with the requirements of the ISO 14001:2015 Environmental Management System Standard
- Ensuring all Spectrum Floors operations achieve compliance with environmental statutory and other requirements
- Conduct regular audits to monitor progress and ensure legal compliance
- Wherever possible, provide and use products and services that have minimal adverse environmental impact
- Minimising waste generation and maximising recycling opportunities
- Ensuring the safe and appropriate disposal of all waste generated to minimise any environmental impact
- Regularly reporting to key stakeholders on key environmental performance factors to improve environmental awareness
- Increasing employee awareness, understanding and involvement in environmental issues through communication and training.

This Environmental Policy is communicated to all persons working for or on behalf of Spectrum Floors and is available to the public when requested.
