Installation

Correct installation is an important part of a successful project. To facilitate the installation the underside of the flooring is sanded. All products should be installed in accordance with BS 8203-2001 and good trade practice. Detailed laying instructions and water based non toxic adhesive recommendations are available on request.

Maintenance

Easy maintenance using environmentally safe materials to high European standards should be performed dependent on site conditions. Detailed cleaning instructions are available for each product on request.

Complimentary technical advice and sample service available | For local personal service phone call 1300 786 585
Please inquire with your Spectrum representative to ensure material availability | Allow 8-10 weeks delivery
