Black

Maximum length per module	2500mm Left to right
Maximum width per module	650mm Front to back, Subject to the weight of the module.
Maximum weight per module	6 kg/m ²
Depth	12mm
Scraper bar material	Aluminum / Black Anodized Aluminum
Construction	Closed
Number of wiper strips	1
Total weight (kg/m ²)	11
Max static load (kg/cm ²)	200
Dynamic load (kg) Heavy Wheel Traffic	200
Frames	A selection of recessed and surface matwell frames are available
Ramp frame model	ARF50 (Recessed)
Manufacturing method	Entrance flooring system clipped and screwed together
Wiper designs	Spectrum Excellence 10 colours
Wiper material	100% BCF Polyamide (Largely Recycled)
Warranty	20 years

In very brightly lit areas, the strong contrast between light aluminum scraper and a dark wiper strip can sometimes create a strobe effect, which should be avoided. To prevent this occurrence, consider using scraper bars in **Black Anodized Aluminum**
