DECLARATION ABOUT REACH

Amsterdam, 16 januari 2024

Zeno-Protect B.V. communicates to its customers and business partners that:

In our production cycle, we use only raw materials (polymers, additives, pvc, plasticizers etc.) acquired by suppliers belonging to the European Community that, in compliance with the new REACH rules, are pre-recording their products. We have no imports of any raw materials from outside the UE countries.

As defined in previous two points, we are included in the category that Reach rules identifies as "downstream users" so, therefore we haven't the obligation to make any pre-registration. We are constantly monitoring activities of our suppliers about the performance of duties in the matter of Reach.

Signed, in Amsterdam on 15th January 2024.

P.N.C. de Jong
CEO Zeno-Protect B.V.
